

## MEXICAN REVOLVERS FEAR INTERVENTION

Sonora Leader Reaches Washington to Present Secessionists' Case.

## OTHER NATIONS UNEASY

Lives and Property Will be Jeopardized if Rebellion Continues to Grow.

Special to THE SUN AND NEW YORK HERALD.  
WASHINGTON, April 19.—The intervention in Mexico to protect lives and property of foreigners again looms as a possibility in the new revolutionary activities growing out of the secession of Sonora. President Wilson is opposed to it, but officials of the United States Government and Latin American diplomats are fearful that a state of complete anarchy may force either intervention by the United States alone or in cooperation with other nations.

In order to forestall such a possibility, Major-General Salvador Alvarado, representing the revolting State of Sonora, arrived in Washington today to present the case of the revolutionists against the Carranza Government to the American public. Gen. Alvarado and others connected with the Sonora rebellion against Carranza insist they will succeed in overthrowing the present regime in Mexico and that they will be in a position to reestablish order and constitutional government within ninety days.

This optimism is not shared by Latin American diplomats, who are discouraged today over recent developments in the Mexican boiling pot. They were much depressed over the receipt of news which indicated that the Sonora revolutionists were planning to all Mexico and to bring about a situation which may force intervention on the part of this country, either alone or as part of a concert of powers.

That the strength of the Sonora revolutionists is growing is clearly indicated by the dispatches. The revolutionary drive toward Mazatlan on the Pacific coast in Sonora is regarded as a logical strategic move. The revolutionists will not be able to make headway against the Carranza Government without arms and ammunition, and these cannot be obtained without access to the sea except by a smuggling process across the United States border.

From official sources it was learned today that no representations have yet been made to this Government for recognition of a state of belligerency in the State of Sonora.

The disposition of United States troops on the border remains with Major-General Dickman. The War Department for some time past has been concentrating troops on the border, and there is no need of additional reinforcements.

The fear of intervention entertained by Latin American diplomats is based to some extent on the added pressure of a political year. There is little doubt that President Wilson is determined against any policy of intervention, but it is realized that failure of the Sonora revolution to stabilize conditions within a short time would result in such a state of anarchy and outrage that even his head might be forced.

If the President is forced to act there is grave doubt here as to whether action would be taken by the United States alone or whether the participation of other powers would be invited in accordance with the spirit of the League of Nations.

## CARRANZA MEN JOIN REVOLT IN SONORA

Movement Against President Reported to Be Gaining.

ANTA PHUETA, SONORA, April 19.—The revolutionary movement of Sonora against President Carranza is gaining ground rapidly, the military headquarters here reports. Gen. J. M. Finca, commander of the Sonora troops in this district, announced that Gen. Francisco Urbalejo, with his Carranza force of 1,500 men at Santa Rosalia, Chihuahua, had revolted and would take the field for the Sonora movement.

Santa Rosalia is on the Mexican Central Railroad, which runs south from Juarez, Chihuahua. With Urbalejo operating in that region, it was said great damage could be done to Carranza's line of communications between the south and troops in northern Chihuahua.

The troops of General Angel Flores were reported continuing the march toward Mazatlan, an important west coast port of Mexico.

More than a thousand Yaquis, under Col. Rodriguez and Aguirre, are encamped here, and it was announced a battalion of Mayas, corresponding to a regiment of United States soldiers, are en route to the local concentration camp.

## PENNSYLVANIA MAY GET BIG FRICK TAX

\$7,000,000 Involved in Supreme Court Decision.

PHILADELPHIA, April 19.—The State Supreme Court today affirmed the Allegheny County Orphans Court in the appeal of Anson W. Hostetter in the estate of Rosetta R. Hostetter. By the decision the right of the State of Pennsylvania to more than \$8,000,000 in direct and collateral inheritance tax is not only preserved in the Hostetter case, but the decision will apply to all other cases of like situation.

Among the estates which may be affected by the decision is that of Henry C. Frick, which would net the State about \$7,000,000 if it should be held to be subject to the direct and collateral tax.

Theodore and Rosetta Hostetter, who had lived in Pittsburgh for many years, went to New York in 1902 to live and took with them their youngest son, Theodore R. Hostetter, Jr. Thereafter they claimed New York as their residence. The father died and the son was killed in France. A dispute arose over the question whether New York or Pennsylvania was entitled to collect the inheritance taxes, it being claimed that young Hostetter at the time he was killed was a resident of New York.

## ROOSEVELT BILL PASSED.

Senate Adopts Measure to Incorporate Memorial Association.

WASHINGTON, April 19.—A bill authorizing incorporation of the Roosevelt Memorial Association, "to perpetuate the memory of Theodore Roosevelt for the benefit of the people of the United States and of the world," was passed today by the Senate.

Erection of a monument in this city and creation of a park at Oyster Bay in memory of the former President are provided for.

## URGE DEVELOPMENT OF VIRGIN ISLANDS

Congress Board Reports on Results of Trip There.

## NAVY HAD FIXED WAR POLICY; STUCK TO IT

Sims Witness Says It Was Promulgated by Daniels on Entering War.

Special to THE SUN AND NEW YORK HERALD.  
WASHINGTON, April 19.—The Virgin Islands, recently bought by the United States from Denmark, should have an American currency and better transportation among themselves and with the outside world; education must be encouraged and improved, and there should be an American code of general laws to take the place of the old Danish laws.

These are the most important recommendations submitted to Congress by the joint committee of the House and Senate, that recently visited them, Senator Kenyon (Iowa), chairman, prepared the report. Other recommendations are:

The United States Government should cooperate with the people of the islands in establishing an adequate water system in St. Thomas and St. Croix.

American boats should be fueled and bunkered at the islands. The Shipping Board now has the matter under consideration. The bar in the harbor of Christiansted should be removed. This would open the harbor to boats of light and medium draft. Establishment of libraries in St. Thomas and St. Croix, private interests in the United States engaged in library extension work.

The "unjust, inefficient and archaic" system of taxation should be entirely reformed so as to raise more money by equitable means.

## RULING HITS ORDER OF U. S. TRADE BOARD

Rights to Require Cost of Production Reports Denied by Justice Bailey.

WASHINGTON, April 19.—The right of the Federal Trade Commission to require monthly cost of production reports and other data from mining companies and other industrial concerns was denied today in the District of Columbia Supreme Court.

The opinion, signed by Justice Bailey, affirmed an application for an injunction against the commission filed by the Maynard Coal Company of Ohio and Kentucky, and ruled that the injunction applied for would issue upon the filing of a bond of \$5,000 by the Maynard company.

Justice Bailey declared that the commission has not the power to exact the reports and information sought.

The coal company claimed that the commission without authority to inquire into that part of its business which was purely intrastate, while the commission contended that the information sought by it was necessary, and claimed victual powers over the coal corporation.

"The mere fact," said Justice Bailey, "that a corporation engaged in mining produces a portion of its product to other States does not subject its business of production or its intrastate commerce to the victual powers of Congress over corporations' interstate commerce."

The reports were called for by the commission in an order dated last January 21, and the commission fixed a fine of \$100 for every day of delay as penalty for failure to comply with the order.

The suit of the Maynard company was the first of a series of friendly suits designed to test the authority of the commission to require private corporations to furnish information as to their business.

Justice Bailey said the "power claimed by the commission is vast and unprecedented."

## Gray Hair Disappears In from 4 to 8 Days

A Scientific Discovery

Science has discovered a way to restore gray hair to its original natural color.

Not by old-time crude dyes so distasteful to dainty women. But by a scientific hair color restorer.

Women have long been waiting for this discovery. All women want to end gray hair. Yet few have wanted to use greasy dyes.

Now women no longer hesitate. Thousands have already used this scientific hair color restorer. And many more thousands are learning of its wonderful results.

A Convincing Test

Mary T. Goldman's Scientific Hair Color Restorer is a clear, pure, colorless liquid. You apply it yourself.

All that is necessary is to comb it through the hair. In from 4 to 8 days your hair will have been restored to its natural color. It leaves the hair soft and fluffy. It will not fade or wash off.

*Mary T. Goldman's*  
Scientific Hair Color Restorer

The coupon in this advertisement brings you free a trial bottle and one of our special combs.

Try Mary T. Goldman's on a single lock of your hair. Note how pleasing it is to use. How it restores your hair to its natural color.

Only then can you appreciate what this scientific discovery means to women.

Send in the coupon today. Accept no imitations. For Sale by Druggists Everywhere.

## PROFITEERS IN SHOES TO BE PROSECUTED

200 Already Arrested, 170 Convicted, 25 in Jail.

## BRIDGEPORT POLICE HEAD IS SUSPENDED

Superintendent John Redgate Removed as Result of Vice Raids.

## HE REFUSES STATEMENT

Action Believed to Be Beginning of General Shakeup in Force.

By a Staff Correspondent of THE SUN AND NEW YORK HERALD. Copyright, 1920, by THE SUN AND NEW YORK HERALD.

BRIDGEPORT, Conn., April 19.—John Redgate, superintendent of police of Bridgeport for the last five years, was suspended from duty late to-night by the Board of Police Commissioners, as a result of the vice raids conducted Saturday night by Burns detectives under the authority of Mayor Clifford B. Wilson, who is also Lieutenant-Governor of the State, and the members of the board.

The action of the board in suspending Supt. Redgate was announced shortly before 11 o'clock by James G. Stanley, president of the police board. The Police Commissioners decided to suspend the superintendent at a meeting, which began shortly after noon and continued almost all of the afternoon. No indication of the action of the board was made public until after Mr. Stanley had been in conference with Redgate for several hours. It is believed that the superintendent protested against being suspended, for at one time during his conference with Mr. Stanley voices were raised in argument, and a few minutes later the Police Commissioner left hurriedly in his automobile for a talk with Mayor Wilson.

After another conference with Supt. Redgate, Mr. Stanley entered police headquarters and announced that the superintendent had been suspended. When Redgate was asked if he cared to make a statement he replied: "No thanks. I don't care to say anything."

Supt. Redgate will be succeeded by Charles Suckley, who is now assistant superintendent of police, pending the trial of whatever charges might be brought against the suspended official. The members of the board who suspended him, besides Mr. Stanley, are Richard H. Murphy, William E. Primrose and Frank D. Anderson.

It is freely predicted around Police Headquarters and in political circles of Bridgeport to-night that the removal of Superintendent Redgate is only the beginning of the action that Mayor Wilson and the Board of Police Commissioners intend to take against the Police Department. It is said that there probably will be several other officials of the department, as well as many of the rank and file, removed or brought up on charges. Burns men are still working about the city, but it is said now they are trying to get evidence connecting the ring and the Police Department.

Many of the persons arrested in the raids Saturday night were arraigned in the City Court to-day, but their cases were postponed. Many others have jumped their bail bonds, which had been fixed at \$25 and \$50.

Daily Paper for Dartmouth.

Special to THE SUN AND NEW YORK HERALD.  
HANOVER, N. H., April 19.—Dartmouth College will be represented in the future by a daily newspaper. The undergraduate publication, the *Dartmouth*, is the oldest college newspaper in the country, having been founded in 1836 and incorporated in 1913. Since 1910 it has been a tri-weekly, with the exception of a few months during the war, when publication was suspended temporarily. The newspaper will now carry Associated Press dispatches in addition to the regular collegiate news.

## JAPS DICKER WITH DENIKINE FORCES

Seek to Safeguard Position in Siberia.

WASHINGTON, April 19.—Japanese military authorities, in their endeavor to safeguard their present position in Siberia, are said in official reports received here to be negotiating for the cooperation of the remnants of Admiral Kolchak's forces still active in that district. Creation to Japan by the Russians of control of the Chinese Eastern Railroad is understood here to be involved in these negotiations, to which China has been made a protesting party.

While Japan has expressly repudiated any intention of territorial acquisition in Siberia, it is also understood that such a promise is entirely consistent, in the Japanese view, with encouragement of the surviving elements of the Omsk government and the people in eastern Siberia to create among themselves a buffer State between the country controlled by the Moscow Government and the Japanese Empire.
